

WrenchUp Terms of Service (Updated Draft)

1. Platform Role

WrenchUp is a technology platform that connects customers with independent mechanics. WrenchUp does not itself provide vehicle repair, roadside, or diagnostic services.

2. Independent Contractor Relationship

All mechanics on WrenchUp are independent contractors. They are not employees, agents, joint venturers, or representatives of WrenchUp. WrenchUp does not direct, supervise, or control the methods, timing, tools, or manner in which mechanics perform services.

3. Service Quality and Responsibility

Service quality, workmanship, parts, and job outcomes are the responsibility of the mechanic performing the service. WrenchUp may facilitate communication, support, and dispute workflows, but does not guarantee service results.

4. Limitation of Liability

To the maximum extent permitted by law, WrenchUp and its affiliates are not liable for indirect, incidental, special, consequential, exemplary, or punitive damages, including lost profits, lost data, vehicle downtime, replacement transportation costs, or business interruption, arising from use of the platform.

WrenchUp's aggregate liability for any claim related to the platform is limited to the amount paid by the user to WrenchUp for the specific transaction giving rise to the claim.

5. Arbitration; Class Action Waiver (US Users)

For users located in the United States, any dispute, claim, or controversy arising out of or relating to these Terms or the use of WrenchUp will be resolved by binding individual arbitration, except where prohibited by law.

Users waive any right to bring or participate in class, collective, consolidated, or representative actions.

6. Payments

By confirming a booking or charge, users authorize WrenchUp and its payment processors to collect applicable service charges, platform fees, taxes, and approved adjustments.
